This leads to the conclusion that the number of respondents who say that all such programs are conducted on personality development and employment opportunities for students in the college is the highest at nine and their percentage is 60%.

3) The number of students who say that they do not visit objects is not the same and the number of students who say that they are guiding the students is 4 and their percentage is 33.33% and the number of students who say that they participate in various programs is 3 and their percentage is 20%. The number of students who say that they carry out the above role for the development of the college, guiding the students, participating in various programs in the college, etc. is 7 and their percentage is 46.66%.

This leads to the conclusion that the number of students who say they participate in all the above activity is highest is 7 and their percentage is 46.66%.

4) The number of students who say that campus interviews are conducted for a alumni in the college is 10 and their percentage is 66.66%. Also, the number of students who say that campus interview is not conducted in colleges is 5 and their percentage is 33.33 percent.

This leads to the conclusion that the highest number of students who say That campus interviews are conducted for alumni in the college is 10 and their percentage is 66.66%.

5) The number of students who say that they get information from the college for campus interview is 5 and their percentage is 33.33%. Similarly, the number of students who say that they get information from alumni is 3 and its percentage is 20% and the number of students who say that they do not get information through social media is not the same the number of student saying they get information from all the above sources is 7 and its percentage is 46.66%

The highest number of students claiming to have received all the information from all the sources is 7 and the same percentage is 46.66%.

6) There are 6 students who say that they attend college alumni meeting once and their percentage is 40%. Also the number of students who say they attend twice is 5 and their percentage is 33.33%. And the number of students who say they attend three times is 1 and their percentage is 6.66%. And the number of respondents who say they do not attend the meeting are 3 and its percentage is 20%.

This leads to the conclusion that the number of students who report attending college and meeting once is higher is 6 their percentage is 40%.

7) The number of students who say that the information obtained in the alumni meeting of the college is completely useful is 7, their percentage is 46.66 % and the number of students who say that they obtained partially information is 8 and their percentage is 53.33% .

This leads to the conclusion that the number of students who say that the information obtained in the alumni meeting of the college is partially useful is highest is 8 and the percentage is 53.33%.

8) The number of student who say that the programs conducted in college is partially useful is 5 and its percentage is 33.33%. And the number of students who say that the programs are totally useful is 9 and its percentage is 60%.And the students who think the programs are of no use is 1 and its percentage is 6.66%.

This leads to the conclusion that the highest number of students who say that the program conducted by the college is completely suitable for the alumni is 9 and their percentage is 60%.

9) The number of students reporting contact with other alumni of the college is 10 and their percentage is 66.66 %. Also, the number of students who say that they do not get in touch with other alumni is 5 and their percentage is 33.33%.

This leads to the conclusion that the highest number of students who say that they come in contact with other alumni of the college is 10 and their percentage is 66.66%.

10) The number of alumni students who say that the benefit of college books is given for the preparation of competitive examination is 14 and their percentage is 93.33%. And the number of students who say that they do not take advantage of the college library is 1 and their percentage is 6.66%.

This leads to the conclusion that the number of students who say that the alumni are given the benefit of the college library for preparing for competitive examinations is 14 and their percentage is 93.33%.

11) The number of students who say that they fully participate in various programs in the college is 6 and their percentage is 40%. And the number of students who say that they participate in various programs partially is 6 and their percentage is 40%. And the number of students who do not participate in various program is 3 and its percentage is 20%.

From this it is concluded that the number of students who say that they fully and partially participate in various programs in college in each is 6 and their percentage is 40%.

12) It is clear from this that job opportunities should be provided by the college for overall development.

Summary report

This leads to the conclusion that the highest number of students who say that guidance meetings are held in the college is 10 and their percentage is 66.66%. Also the number of students who say that all the above programs are conducted on the occasion of personality development, employment opportunities for alumni in the college is 9 and their percentage is 60%. And guides students in the role of students for the development of the college and participates in various programs of the college. The number of students who say that they participate in all the above is 9 and their percentage is 46.66%. The highest number of students who say that campus interviews are conducted for alumni in the college is 10 and their percentage is 66.66%. And the percentage of student who says all the above from college and alumni for campus interview is 100%. The number of students who report attending college and meeting once is higher is 6 their percentage is 40% and the number of students who say that the information obtained in the alumni meeting of the college is partially useful is highest is 8 and the percentage is 53.33%. And also the highest number of students who say that the program conducted by the college is completely suitable for the alumni is 9 and their percentage is 60%. This leads to the conclusion that the highest number of students who say that they come in contact with other alumni of the college is 10 and their percentage is 66.66%. And the number of students who say that the alumni are given the benefit of the college library for preparing for competitive examinations is 14 and their percentage is 93.33%. From that the number of students who say that they fully and partially participate in various programs in college in each is 6 and their percentage is 40%. It is clear from this that job opportunities should be provided by the college for overall development.
