Course Contents for Module Electrician Domestic (ELE701)

Underpinning Knowledge (Theory)	Practical Competencies
Safety Practices - Fires in electrical Circuits & Precautions - Fire Extinguishers & its Types - General Safety of Tools & equipment - Rescue of person who is in contact with live wire - Treat a person for electric shock/ injury	- Fire Fighting - Safely handling Tools & Equipment - Use of proper Tools & equipment & its maintenance - Rescue of person who is in contact with live wire - Treat a person for electric shock/ injury
Introduction to Electricity - Concept of basic Electricity, Single phase & three phase circuits - Electrical terms like Voltage, Currents, Resistance, Impedance & power factor	- Simple electrical Connections using resistance, voltmeter, ammeter & multimeter. - Practice on simple three phase circuit
Introduction to Electronics Familiarization with electronic components like Capacitor, Choke coil, Diode, Transistor, Thyristor	- Using electronic components in basic Electrical circuits - Electronic choke & CFL assembly
Symbols, Diagram & Rules - Studies of diagram & Symbols used in basic Electrical Circuits, Wiring & installations. - Colour Code of carbon Resistors - IE rules for General Electricity	- Identifying accessories/ symbols as per symbols - Making plan of wiring and marking light, power and other points accordingly. - Practicing the colour coded resistor value, verifying with multimeter.
Simple electrical Circuits - Series & Parallel Circuits - Direct current & Polarity testing - Alternating Current & identifying phase neutral and earth terminals - Interpret the components as per circuits and laying components on PCB - Testing of assembled PCB	- Connecting number of lamps in series and parallel circuits - Testing DC supply polarity - Identifying phase, neutral and earthing in three phase supply. - Laying components as per layout & soldering on PCB - Trouble shooting of assembled circuit
Earthing - Concept of earthing, purpose & types - Pipe earthing & Plate earthing - Earthing of domestic installation	- Carry out pipe earthing & plate earthing - Carry out domestic installation testing for earthing
House wiring & its concepts - Conductors, Insulators & its types - Crimping & Crimping Tools, Soldering - Joints in Electrical Conductor - Concept of gauge of wire, conductor	- Skinning different types of cable ends - Making various joints like twist joint, married joint, Tee joint in stranded conductors - Prepare T.W. Board for fixing Flush type

material & its current carrying capacity • Determination of Fuse size according to the load of circuit and its location • Study of different components used in house wiring. • Use of Megger & Test lamps in fault location • Energy meter installation • Concept of different types of switchgears used in general Electrical installations.	accessories • Make the wiring layout for a bedroom with light, fan & Power points • Carryout the wiring such as cleat, conduit, PVC casing and capping & concealed as per layout. • Assembly & installation of single & twin fluorescent lamp, Use of two way switches. • Wiring in two way or three way systems as prescribed and makes electrical connections through plugs and switches to different points. • Determine the number of lamps to be connected in series for particular supply voltage for making decorative serial lamp • Erection of switch boards & fixing of switch box casings cleats, conduit ceiling roses, switches etc. • Testing of electrical installations & equipment and locating faults using Megger, Test lamps & its removal. • Prepare & mount Energy meter board • Dismantling and assembling of switchgears in simple electrical installations
Home Appliances and its Repair • Voltage and Power requirement of all kinds of home appliances • Basic construction and assembly of electric iron, heater and fan • Basic construction and assembly of mixer, grinder, blender and OTG • Basic construction and electrical parts of washing machine, microwave oven, refrigerator and dish washer • Repair and service technique of home appliances	• Clean lubricate and replace bearing of ceiling fan • Test and replace capacitor and regulator of ceiling fan • Check and repair oscillator mechanism of table fan • Check and replace thermostat of electric iron and geyser • Dismantle and reassemble mixer and grinder • Check and replace thermostat and relay of refrigerator • Check water pump, timer and switches of washing machine • Check the internal connections and identify the fault in microwave oven
Battery Maintenance • Types/rating of batteries and their application in inverter and UPS	• Preparation of electrolyte • Preparation of cells and their arrangement
